breeze™
PATENT PENDING

by Fan-Tastic Vent Corp.

ANNOUNCES PET FRIENDLY FEATURE!

Imlay City, Michigan-

Fan-Tastic Vent Corporation, manufacturer of the 12 volt Endless Breeze™, announces a new swing-out hanger arm. This innovative pet friendly feature allows easy attachment of the fan to the side or front of your pet crate.

Endless Breeze™ is a major breakthrough in 12 volt portable fans. Cool your pet before, between and after performance runs or while traveling. It delivers the equivalent of a constant 10 mph wind using an automotive type fan blade and motor. Standing only fourteen inches high on retractable legs and less than three inches thick it travels and stores easily and weighs under five pounds. Endless Breeze™ easily plugs into most standard DC outlets or operates on 110 volt AC with a 4-amp converter.

Pamper your pet with a breeze anytime, anywhere.

Visit Fan-Tastic Vent's website for an overview of the company and products offered.
